

Software Engineer / Cloud Development (m/f)

You want to develop cutting edge software solutions and actively shape the next generation of cloud applications. You are well-familiar with modern architectures and patterns such as Micro Services and Backend For Frontends as well as their implementations in Cloud Computing Stack (PAAS, IAAS, SAAS). You are thrilled by the thought of deploying new features with a high frequency to thousands of users at the push of a button. You want to check out new technologies, trends and architectures and quickly convert ideas into prototypes.

Your tasks

- Development of intelligent, cloud-based software products using modern technologies like C#, WCF, Angular, REST, SOAP and Jenkins
- Diversified programming tasks using agile methods like Scrum or Design Thinking
- Development and operation of systems with 24/7-availability
- Close collaboration with customers and fellow colleagues in self-organized, interdisciplinary teams

Your profile

- University degree in informatics, business or media informatics, or comparable qualifications
- Experience with Test-Driven Development (TDD) and Continuous Delivery
- High abstraction capability and quality awareness
- Strong creativity and innovative way of thinking
- Quality awareness and customer orientation
- Knowledge of German language (B2)

Insiders Technologies is one of the most successful IT companies in Germany. We accompany our customers on their way to becoming a digital company - with innovative software for intelligent input management and modern customer communication. Through research collaborations and the exchange of experience in the market, we ensure the innovative strength of our company. We offer our employees a wide range of development opportunities and long-term career prospects. In interdisciplinary teams we work with modern methods such as design thinking or scrum and create scope for our own ideas. Exciting team events and joint sports activities also help to balance out the daily work routine.

Data protection for applicants
